

SEAVEE 270Z BAY

BEYOND THE BAY

At twenty-seven feet overall, the 270Z is a stable platform designed for large bays and coastal areas, as well as the occasional offshore excursion. A hull draft of only 15" allows the 270Z to access skinny water and glide along silently guided by a high thrust trolling motor.

Boats **VEE**
LEAD THE WAY

FISHING FIRST

The most important fishing feature on any bay boat is adequate deck space. And the 270Z offers plenty of it! Oversize bow and aft casting platforms are connected by wide gunwales that make walking from bow to stern safe and easy. Eliminating the space hogging splash well further enlarges the overall size of the aft platform – making it the largest currently available on any boat in this class.

BRING IT ALL

Storage and live well space are also a key focus. An abundance of storage lockers, live wells and fish boxes make it easy to bring everything you need – every time! Rod lockers are large enough to accommodate fly rods up to 9 feet and the console holds up to 16 rods vertically.

THE POWER OF CHOICE

When you're building a SeaVee, the brand of motors you choose to hang is up to you. Power options for the 270Z Bay include single or twin engines, up to 450 hp. Motors are mounted on hydraulically operated jackplates with plenty of room for single or twin powered anchor poles. 300hp is sufficient to reach speeds around 50mph. Upgrading to 350hp elevates performance into the mid 50mph range.

THE RIDE THAT GLIDES

Just like her bigger SeaVee Z cousins, the 270Z's cross ventilated, twin stepped patented hull produces better speed, efficiency and handling characteristics than ordinary stepped hulls. Its multiple lifting bodies and unique hull geometry result in a fixed running trim angle, ensuring an optimum angle of attack regardless of speed or sea conditions.

FISH BOXES

Front and rear fish boxes are over 6 feet long, offer plenty of storage space, and are insulated to keep your catch cold for days.

ROD STORAGE

The 270Z features two rod lockers, as well as vertical rod storage in the leaning post and on both sides of the console for up to 19 rods.

POWER POLES

Install up to two 10' power poles on either side of the transom for fast, easy and silent anchoring in shallow water.

REAR SEATING

A large pop-up rear seat makes longer runs comfortable and days at the sandbar more fun.

LEANING POST

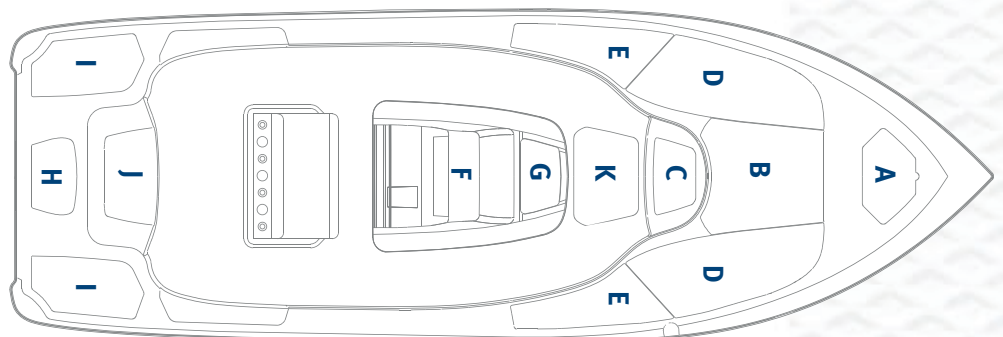

Featuring abundant storage for rods and gear, the leaning post is available with or without a cooler below.

BAIT WELLS

The 270Z features two standard livewells, one located up front, and one located aft. An additional 2 wells can be added by converting the rear fishboxes.

DECK LAYOUT CHART

- A. Anchor Locker
- B. Storage Compartment / Trolling Motor Batteries
- C. Fwd. Live Well
- D. Port & Stbd. Fish Boxes
- E. Port & Stbd. Rod Lockers
- F. Console w/ Vertical Rod Storage
- G. Drink Cooler under Fwd. Seat
- H. Aft Center Live Well
- I. Storage / Optional Fish Boxes or Release Wells
- J. Aft Center Fold Down Seat / Bilge Access
- K. Storage with molded bucket receiver

SPECIFICATIONS

THE CONSOLE. FORM FOLLOWS FUNCTION

You spend a lot of time at the helm. That's why we spent so much time focusing on the console. Besides the sheer size, you'll notice almost immediately that ergonomics drove the design process.

There's ample space to flush mount a variety of electronics. A watertight compartment for cell phones and wallets is centrally located. The windshield is made of tempered glass. Accessory switches and the ignition are mounted on vertical surfaces to minimize water intrusion. And there's a cup holder on either side of the console.

Up front, the console offers a built-in drink cooler and easy access to wiring and electronics installations. On the inside, the console features a molded, finished liner with a high-gloss gelcoat finish. We think you'll agree, it's love at first sight.

STANDARD FEATURES

- 24 Gallon Fwd. Live Well
- 30 Gallon Aft Transom Live Well
- Molded Double Aft Bench Seat
- Molded Anchor Locker
- 75 Gallon Fwd. Fish Boxes Port and Starboard
- Bow Storage Compartment with Separate Battery Area
- Dual 9' Rod Lockers with Fold Away Rod Racks Port and Starboard

- Safety Gear Storage Compartment with Integrated Bucket Receiver
- 68 Quart Console Integrated Drink Cooler
- Dual 17 Gallon Aft Storage / Optional Release or Live Wells. Port and Starboard
- Engine Jack Plate
- Trim Tabs
- SeaVee Proprietary Resin Infused Cored Hull and Deck
- LED Lighting in all storage lockers, livewells, under gunnel/courtesy lights and navigation lights
- Pull Up Cleats (6)

- Molded Tempered Glass frameless Windshield
- Stainless Steel 15 Degree Rod Holders (4)
- AGM Group 27 Battery (2) Includes Automatic Charging Relay
- 12 Volt DC Circuit Breaker Panel
- Welded Aluminum, Epoxy Coated Aluminum Fuel Tank
- 10 year hull warranty

SPECIFICATIONS*

Length:	27'
Beam:	9'1"
Weight w/o engines:	3,500 lbs.
Hull Draft:	15"
Hull Deadrise:	17°
Fuel Capacity:	116 gal.
Fresh Water Capacity:	9 gal
Max Engines:	2
Max HP:	450
